

Product Data Sheet

Very Handy Exit Switch

NRAWVHES is a new "no-touch" exit switch.

Unlike traditional exit switches, the VHES does not require any form of physical contact to operate - this is because the VHES uses infrared technology to sense an exit request. Simply placing a hand in front of the unit will activate the sensor, and change the internal relay state to operate the electronic lock.

As well as being a convenient exit switch, the unit is ideal for applications where the users are not dexterous and have difficulty "targeting" a push button - additionally, as there is no contact with the switch, the VHES is suitable for clean areas such as laboratories and hospitals.

The VHES is available as flush or surface - both housed in high grade stainless steel - and supplied with the applicable back box, security screws, allen key and instructions.

- * High traffic areas
- * Clean room environments
- * DDA applications
- * Flush or Surface
- * High grade stainless
- * No moving parts
- * Changeover relay
- * 2 year warranty

Model #
NRAWVHES

Technical Specification

Input Voltage:	8 - 15 volts, DC
Input Current:	30mA active
Relay Output:	NC / C / NO
Switching Current:	3 Amps @ 12VDC
IP Rating:	IP53
Warranty:	24 Month return to manufacturer
Compliance:	CE , ROHS & WEEE
