## Wireless DECT Audio Door Phone & Telephone

The DECT wireless and cordless door entry phone system from CDVI offers maximum convenience when answering callers over the telephone network or from your front door.

WDP-180D/180DS

The new DECT compatible wireless and cordless door entry phone system from CDVI allows the combining of your home phone functions with the convenience of communicating with your visitors at your front door or your secured first entrance point.

Using proven DECT technology, good roaming range can be achieved for both telephone calls and entrance point calls. In the case of a visitor to your front door or first entrance point, you can communicate with them and decide whether to allow them access through the secured access point. Any of the DECT telephones can release the door or secured entrance point simply, by selecting a key on the DECT phone keypad.

WDR-2GD

- *DECT compatible*
- *Up to 4 cordless telephones*
- *Colour LCD display*
- *Make & receive standard telephone calls*
- *Remotely unlock the door*
- *Tough metal door call station*
- *External or internal use*
- *Concealed fixings*

The DECT wireless and cordless telephones also perform well as your home telephones, allowing room to room communication (intercom) and many other functions associated with the DECT standard. The clear colour LCD display allows for easy viewing while programming and receiving calls. The ringing tone from the door is always different from your selected incoming telephone ring tone, so you are always aware of the origin of the call.

DECT compatible - Lock output - Up to 4 compact cordless phones.
