## BS Anti Snap, Anti Bump Cylinders

The Anti Snap Cylinder features many security features at a fraction of the cost of our competitors offering similar products. It is sure to be the cylinder of choice for any company wanting low cost, high security cylinders.

The Anti Snap Zero Lift cylinder offers protection against the most common means of attack and can be used without a cylinder guard.

These cylinders offer the best Anti Snap features on the market, on both sides of the cylinder there are 3 Anti Pick pins, 4 Anti Drill Pins, with 2 in the cylinder body, and 2 in the plug head. All cylinders are 6 pin, and all conform to EN1303:2005. The British Standard Kitemark is one of the most recognised quality and safety symbols in the world and offers true value to consumers.
