

Product Data Sheet

Flame Retardant Document Wallet

The “Nirose” Flame Retardant Document Wallet is made out of heavy duty flame retardant PVC coated nylon, which has been tested, to BS5438 Method 2. The material will retain its integrity up to 450degrees C. The Poly zip has been mounted on flame retardant backing tape and “Nomex” flame retardant thread has been used throughout.

The wallet was specifically designed for use within metal safes and offers a measure of protection to documents when used in this way. The wallet is big enough to allow A4 paper to be inserted without folding, yet small enough to fit into even a floorboard safe.

Model # NRFRDW
