

Product Data Sheet

Peli 9430 Remote Area Lighting System

- Polycarbonate Lens is lightweight and impact resistant
- Maintenance Free LED Array with life expectancy of 50,000 hours
- Fully extendable mast with 360 degree rotating head
- Waterproof Rubber Activation Switch
- Mast Extension Lock

The Area Lighting System is a unique and innovative lighting range, providing mobile/emergency lighting where mains power may not readily be available.

Peli 7060 LED Flashlight

In a rare collaboration between public and private sectors, the City of Los Angeles Police Department™ (LAPD) has partnered with Pelican Products to develop the 7060 LED as the standard issue tactical/patrol flashlight for all its officers. The Peli 7060 LED light employs new dual switch technology that allows the light to be activated by either a body-mounted patrol switch or a tail-mounted tactical switch. The dual switches, which include a momentary mode, allows the user to grip the light in several positions and still control activation. The light incorporates rechargeable Lithium-Ion batteries for maximum brightness and are also light weight compared to standard batteries.
