

# Product Data Sheet

## The Revolver Lock

Is a British Designed, British Manufactured Lock,  
Capable of fitting many types and sizes of hasps.

Unique Features include:

- Operated by most makes of Euro Half Cylinder (30mm to centre of cam).
- The whole body Revolves for added security and to protect the cylinder from dirt.
- Snap locks by latch automatically (no need for a key to lock).
- Anti-Drill Pin to protect latch.
- Made from Stainless Steel.
- Keyway is on the Front Face of the Lock.

We have also designed & made a fully enclosed hasp to suite the Revolver Lock  
which can be used as a standard hasp  
OR you can fix the Revolver lock to the hasp and use it as a Slam Shut Hasp.
